

**point of sale**

**retail management software**

“ Pos2go Retail Management Software is a powerful business management solution developed specifically for retailers. It is designed to escalate profit in a challenging market by increasing sales and successfully managing inventory, suppliers, pricing, promotions, staff and customers. ”

### Point of sale

Simple and intuitive point-of-sale you'll love to use.

So simple. Easy-to-use interface, built on the latest technology. It's fast, responsive, and easily customised.

Windows based touch-screen. The user friendly interface is designed to work with both mouse and keyboard, as well as touch-based input, on a wide variety of devices. So it works the way you want to use it, on the equipment you choose.

### Product management

Managing your products is a breeze. Easily add, edit and remove products, including stock changes and taxes. Flexible pricing options include full support for price breaks, discounts, sale campaigns, and specific pricing by location and by customer.
